SUMMARY

I am a second-year Computer Science student at Misr University for Science and Technology, passionate about web development, especially front-end technologies. I have hands-on experience in building responsive and user-friendly web interfaces using HTML, CSS, JavaScript, Bootstrap, and Angular.

TECHNICAL SKILLS

HTML	Angular v19	SQL Fundamentals
CSS	Angular Signals/Ngrx/Rxjs	OOP
JavaScript	RESTful API	Data Structure
TypeScript	Unit Testing(Jasmine&Karma	Algorithms
Bootstrap	Knowledge of performance	Solid Principles
Glt & Github	optimization	

SOFT SKILLS

Fast Learner Hard Worker Problem Solving

PROFESSIONAL EXPERIENCE

Converted in

Feb 2024 - Present

- Data Entry & Data Research (Part-Time) : Responsible For Adding Products Data On The Company's websites Using Shopify.
- Researching for Companies That Use Specific Technologies in Marketing For Example And Make A List Of Them And It's Details.

EDUCATION

Misr University For Science And Technology

2023

Faculty Of Computer Science ;-

My academic journey has provided me with a solid foundation in algorithms, data structures, and object-oriented programming (OOP).

Current Grade : B+.

PROJECTS

- Kasper Template :-
- Clean and responsive one-page template using only HTML & CSS, focused on layout and styling best practices.
- <https://belal-salah1.github.io/Kasper-Template/>
- Zero Template :-
- A fully responsive and animated template built with HTML & CSS, inspired by modern design trends.
- <https://belal-salah1.github.io/Zero-template/>
- my Portfolio:-
- Personal portfolio website built with HTML, CSS, and JavaScript featuring custom animations, responsive design, and interactive UI elements.
- <https://belal-salah1.github.io/My-Portfolio/>
- Cli Tool Using NodeJs ;-
- <https://github.com/belal-Salah1/CLI-TOOL>
- E-commerce application:-
- Built a responsive e-commerce app using Angular with lazy loading, services, guards, environment configurations and unit testing with Jasmine . Implemented authentication (login/register), reactive & template-driven forms, cart with checkout, and custom pipes.
- <https://github.com/belal-Salah1/Ecommerce-Cart>
- **Languages:** English, Arabic.
